Living-room alla primavera – Italian Modernism and beyond at Lampedo

Lampedo Kunsthandel's new showroom will open on May 23rd 2009 in Berlin-Mitte. Admirers of vintage design, interested visitors and clients of Lampedo Kunsthandel will be given the opportunity to experience a unique selection of 20th century furniture. Lampedo's managing director, Mr. Markus Winter, assisted by design expert Mr. Arne Sildatke, will present an exceptional assortment in the new showroom. The initial show is entitled "Italian Modernism and beyond". Splendid objects from such celebrated designers as Gio Ponti, Luisa and Ico Parisi and Osvaldo Borsani will be on display. But also lesser known names like the Milanese-born Paolo Buffa can be discovered by an open and eclectic audience. Especially in this section, there are plenty of opportunities for established and new collectors alike, as these investment grade pieces are consistently appreciated on the international market.

The new showroom will form an inviting point of attraction in the local art scene, addressing a broad, interested and enthusiastic audience with prices ranging from €500 to €15.000. Among the selection of design objects, which are presented to the increasingly international Berlin art market, will be comfortable pieces for friends of Italian design as well as pieces with a certain collector's quality. In the opening show and into the future, a high-level of know-how, service, international experience and market expertise will continue to be Lampedo's hallmarks.

To further ensure this great standard, the Lampedo team is joined by Arne Sildatke. Mr. Sildatke is an internationally experienced professional specialist for applied arts, architecture and modern design. He is currently doing research on German 1920s interior design.

Visit us at the end of May in our newly designed showroom and become enchanted by the glamour and quality of Italian vintage furniture!
